

ONE DAY ONE NIGHT

(Texte : Jean Launay - Debbie Atterholt)

Musique : Jean Launay)

One day, one night

Is all the time that you need

One night, one day

To change the life that you lead

One day, one night

Will carry you up to speed

One night, one day

To make your way and succeed

One day long is good enough (one day)

To know that you've had enough (one night)

Starting off a brand new life (one day)

Makes you think of what is right (one night)

One day, one night

Is all the time that you need

One night, one day

To change the life that you lead

One day, one night

Will carry you up to speed

One night, one day

To make your way and succeed

You've been weighing pros and cons (one day)

Making plans to build upon (one night)

Just to change your mind again (one day)

And face perpetual end (one night)

Why not act and step aside

And see that the road is wide

You may strive to reach your goal

But one day you'll find your role

One day, one night

Is all the time that you need

One night, one day

To change the life that you lead

One day, one night

Will carry you up to speed

One night, one day

To make your way and succeed

One day, one night

Is all the time that you need

One night, one day

To change the life that you lead

One day, one night

Must not be too much indeed

One night, one day

To realize that you're freed
